|-----------------------------------------------------------------------------------|-----------------------------------|------------------------|----------------------------------------|
|  |                                   | <b>MERS Statistics</b> |                                        |
| <b>Distribution</b>                                                               | <b>July 13, 2015 (09:00 A.M.)</b> | <b>Department</b>      | <b>Central MERS-CoV Control Office</b> |

□ Table 1. Current status of MERS cases in Republic of Korea

| Classification of cases        | Laboratory-confirmed cases | Discharged | Deaths | Cases Under Treatment |
|--------------------------------|----------------------------|------------|--------|-----------------------|
| Total                          | 186                        | 130        | 36*    | 20**                  |
| Increase or decrease (July 13) | 0                          | 0          | 0      | 0                     |

\* Age, sex and comorbidity of deaths

- Sex: Male 24 (66.7%), female 12 (33.3%)

- Age above 60 years old: 29 (80.6%)

- Comorbidity: the number of high-risk patients in old age or with underlying medical conditions such as cardio-cerebrovascular disease, cancer and chronic respiratory disease is 33 (91.7%).

\*\* The states of 16 cases are stable and those of 4 cases unstable.

□ Table 2. Current status of MERS quarantine in Republic of Korea

| Status of quarantine           | Under Quarantine |      |             | Finished |
|--------------------------------|------------------|------|-------------|----------|
|                                | Sum              | Home | Institution |          |
| Total                          | 451              | 402  | 49          | 16,231   |
| Increase or decrease (July 13) | -34              | -18  | -16         | 34       |

□ Table 3. Type of Confirmed Cases

| Type            | Total | Inpatients | Family members or visitors (visiting hospital) | Medical professionals or staff |         |        |               |                |                   |            |                |                     |
|-----------------|-------|------------|------------------------------------------------|--------------------------------|---------|--------|---------------|----------------|-------------------|------------|----------------|---------------------|
|                 |       |            |                                                | Sum                            | Doctors | Nurses | Radiographers | Transfer staff | Ambulance workers | Caregivers | Security guard | Computing personnel |
| Number of cases | 186   | 82         | 65                                             | 39                             | 8       | 15     | 2             | 1              | 2                 | 8          | 2              | 1                   |

□ Table 4. Age of Confirmed Cases

| Confirmed Cases | 30s or younger | 40s | 50s | 60s | 70s or above |
|-----------------|----------------|-----|-----|-----|--------------|
| 186             | 40             | 29  | 42  | 36  | 39           |
